

## **INHIGEO WEBINAR SERIES**

This new online series of webinars will provide a Virtual Open Forum for discussion of a wide range of topics on the History of the Geological Sciences and will include panel discussions, book presentations, workshops for exchange of views on methodology / practice for those new to historical research, archives and what to look for and much more.

The webinars will focus in particular on the research recently carried out by young INHIGEO members / early career scholars.

The first webinar will be open to INHIGEO members and interested participants. It will consist in an informal presentation of the initiative, open discussion and 'call for webinars' on possible interdisciplinary topics for the series which will start in Autumn 2022.

**Suggestions for topics are welcome!**

**Platform: [Microsoft Teams](#)**
